Steve Sellinger
Envent Corporation
2187 Walnut Avenue
Signal Hill, CA 90806

Dear Steve;

Thank you for your continued response to Equilons tank degassing and vapor control needs. Your operation is performed in a safe and efficient manner and the Envent operators are professional and attentive to operational, safety and environmental issues. Your timely response whenever contacted has enabled us to continue to meet our customers needs and is greatly appreciated here at the Equilon Carson Terminal. As the Equilon Carson Terminal Operations Supervisor I would recommend your companies services for this work at any other Equilon facility. Thanks.

Sincerely,

[REDACTED]
